Date: 01 November 2012

Dear David

**Waste Electrical & Electronic Equipment Regulations 2006 (as amended)
Approval as a producer compliance scheme: Clarity**

The Waste Electrical & Electronic Equipment (WEEE) Regulations allow for a scheme to change the scheme operator and/or the scheme name at any point during a compliance period. Under the conditions of approval in Regulation 43(d) an operator of a scheme must inform the appropriate authority of any such change.

I am in receipt of your updated operational plan that confirms the scheme name Econo-Weee and the scheme operator Econo-Compliance Ltd have changed to Clarity and Clarity Environmental Ltd respectively. I have made the necessary amendments to reflect the changes on our systems. As a result please find enclosed an updated notification of approval for your WEEE scheme.

The WEEE scheme public register will be updated shortly, but you are of course able to use the new details on all communications and submissions immediately.

Your approval is subject to compliance with the conditions of approval in Regulation 43 of the WEEE Regulations. These are attached to your notice of approval. If you do not comply with the conditions of approval we may take enforcement action against you, including withdrawal of your approval.

This approval does not replace any other environmental authorisations that you have. You must still comply with these and other relevant legislation.

Yours sincerely

Will Smith
Regulatory Team Leader
Producer Responsibility Regulatory Services
